

Appendix D

Homework Gap

Source: U.S. American Community Survey
2015-2019

The map shows census tracts divided into low, medium, and high based on the percent of children with a computer but no internet as of 2019. A darker color indicates a higher share. Table shows the percent of children with a computer but no internet per county and the region.

6%

of households with a minor(s) report having a computer but no internet subscription

2%

of households with a minor(s) report having no computer

17,369

Population under 18 years Old

27%

Child Poverty Rate
